HORSE Paddock MIX

Very palatable & dense hardwearing mix with high Timothy content for grazing and hay. The inclusion of fescue and meadow grass help to bind the sward together and quickly repair sod damage caused by hooves.

PACK SIZE : 14KG(1 acre pack)

- 2.0 kg Seagoe (T) – Perennial Ryegrass
- 3.0 kg Oakpark - Perennial Ryegrass
- 3.0 kg Drumbo - Perennial Ryegrass
- 2.0 kg Esquire – Dwarf Perennial Ryegrass
- 2.0 kg Corail – Strong Creeping Red Fescue
- 2.0 kg Dolina – Timothy

LOW
LAMINITUS
RISK MIX

A mix for overseeding grass into open swards / damaged ground.

PACK SIZE : 10KG (Overseeding rate 5 - 7kg/acre)

A dedicated haylage mix that will produce excellent yields of highly palatable feed over 2 years. Varieties have been specially chosen for their suitability for producing quality haylage due to the innate resistance to mould causing diseases.

This attractive sward comprises of a blend of hardwearing dwarf perennial ryegrasses and fescues that are fast to establish and will recover quickly after heavy use. It is designed to produce a very dense, cushioned sward which could also be used for other heavy duty equestrian sports such as polo or showjumping.

SPECIALIST MIXTURES

Specialist mixtures including 'Healthy Herb Mixtures' are available on order.
